

MAGNUM PT100 MPPT

Product Description

- Designed specifically for most demanding renewable applications to harvest the maximum available energy
 - 99% Efficiency
 - MPPT Technology
 - 12,24 & 48V
 - Support up to 6600Wp PV
 - Ground Fault Detection (GFDI)
 - Multi-Stage Charging
 - Integrated PV Arc Fault Circuit Interrupter (AFCI)
 - 255 Day Harvest Data Storage
-
- 5 Years Warranty

Specifications

<u>Electrical Specifications</u>	
Max PV Input Voltage Range	200 + Bat Voltage or 240V
Max PV Operating Voltage	187V
Max PV Array Short Circuit	100ADC
Bat Voltage	12,24,48V
Cont. Charger Output Current	100ADC
Max Output Power	6600W
<u>Dimensions</u>	
Product	216mm x394mm x 102mm
Weight	5,7 Kg
